PRESENTATION: City of Winnipeg Frozen Water Pipes Emergency Response

Presenters: Randy Hull, City of Winnipeg Emergency Coordinator
Constance Menzies of Chocolatier Constance Popp

2013-14 was one of the City of Winnipeg's longest, coldest winters on record. With it came frost that permeated the ground to depths far deeper than usual, resulting in frozen water pipes to hundreds of homes and businesses.

By attending this engaging presentation you will:

- Hear about lessons learned and challenges experienced by the City of Winnipeg as they managed the frozen water pipe emergency;
- Learn about the event through the perspective of an impacted business and how operations were maintained despite the frozen water pipe disruption;
- Share in discussion on how practitioners can help their organizations prepare, should a similar event occurs again in the near future.

Register today at www.driecentral.org! Deadline is Monday September 15th, 2014
